We cruised with Discovery One on the first trip of the season in 2018 and it was brilliant! We've done a number of cruises overseas but this was just so different and up there with the best!

"After we did the small plane scenic flight from Derby to the Mitchell Plateau, transferred to a helicopter for a flight over the Mitchell Falls, then over the escarpment to land on a pristine white sand beach, we transferred to a zodiac to go out to the ship. I said to the other passengers, "Wow! How fantastic was that! You couldn't get better than that. It's going to be all downhill after this." Little did I know that each day was going to be even better than the day before. This Kimberley experience should be on everyone's bucket list - and no better way to do it than with Discovery One."

The Kimberley coast is a spectacular landscape – considered one of the world’s most precious wilderness regions. Cruise the 1,000 islands of the Buccaneer Archipelago, explore pristine white sandy beaches and swim at little known freshwater rock pools. Take in the richly coloured cliff formations, ancient rock art, remote reefs and the world’s only horizontal falls. Be in awe of the staggering 10m tides - the largest tides in the world and admire the abundant wildlife – playful Humpback whales, nesting turtles, dolphins and birdlife. It is not surprising the Kimberley is one of Australia’s must-see destinations.

THE KIMBERLEY

Discovery One’s crew and team acknowledge that Indigenous Australians are the traditional custodians of the Kimberley. Approximately fifty percent of the Kimberley’s population comprises Indigenous people who represent more than 30 language groups. We pay our respect to Elders past, present and emerging.
